Introducing the new

'Fairway'

Special Edition

3-wheel electric golf scooter

The new 'Fairway' Special Edition

The Tubby Tyre Scooter Company has introduced the fantastic, super cool, new 'Fairway' Special Edition golf scooter, specifically designed and engineered with the golf community in mind.

Relax and ride from hole to hole in comfort and style with the Fairway electric scooter to complete the full round (or more) and have more time in the clubhouse 'celebrating' that win, amazing eagle or birdie.

Our Tubby Tyre Fairway Special Edition has three wheels and enough power to carry player, clubs, cool drinks*, and accessories up and down the fairway slopes around 9, 18, or even 27 holes. Plus its 'tubby tyres' and lightweight frame are less damaging to the course than the traditional 4-wheel golf buggy.

You get a smooth ride from the front and rear suspension, even over rough ground, and those tubby tyres will run smoothly over the most pristine fairways, virtually without making a mark, adding further fun and excitement to your round of golf, while being very cool, stable, practical and amazingly easy to ride.

The Fairway has a range of nearly 30 miles and to recharge simply plug into any normal plug socket

*cool box can be switched for a second seat if required

What You Get & Your Questions Answered

EQUIPMENT

The Fairway comes fully equipped with:

- Heavy Duty Golf Bag Holder
- Cool Box/Drinks Holder (or second seat)
- Mobile Phone Holder with charger
- Scorecard and Pencil Holder
- Tee and Ball Holder
- Two Batteries
- Charge Cable (standard 240v socket)
- Battery Voltage Display
- LED Headlight and GPS Tracker

Frequently Asked Questions

Q: Has the Fairway been tried and tested on golf courses?

A: Yes, hilly ones and flat courses, performing superbly.

Q: How easy is the Fairway to ride?

A: Very easy. Because it's a three-wheeler there is no balance required and is very stable.

Q: Will it mark or damage the golf course?

A: No, because of the three-wheels and tubby tyres there should be no damage to the course if ridden responsibly.

Q: What's the warranty?

A: The Fairway comes with a non-transferable 12-month warranty (please see detailed terms of warranty cover on website).

Q: How long does it take to recharge the battery?

A: The Fairway will take 6-8 hours to fully recharge a flat battery using normal household socket.

Q: Can the Fairway be used on UK roads?

A: The Fairway is not road legal, however for a little extra cost it can be.

Q: Will my golf bag fit on a Fairway?

A: Yes, we can fit a rack designed for the smallest to the largest 'Tour' bag.

Q: Can you do a custom build?

A: Yes, of course. If there is something you specifically require, please contact us and we'll put together a proposal.

We are the **Tubby Tyre Scooter Company** and we manufacture the UK's coolest road-legal electric scooters.

With rising levels of traffic on the road, and the Government's long term plan to phase out internal combustion engine vehicles, it's safe to say electric transport is here to stay.

Why not get ahead of the curve, turn heads and have some fun with your very own road-legal electric Tubby Tyre Scooter.

Each of our models offer something for everyone. Off-road, road-legal, all-singing all-dancing or ultimate personalisation – we've definitely got the right model for you.

Every Tubby Tyre Scooter comes with:

- 12 months non-transferable warranty
- 12 months servicing
- A range of standard features (subject to model chosen)

We are suppliers of fun, environmentally friendly two or three-wheel electric scooters for leisure, holiday exploration or commuting. Our scooters are characterised by Tubby Tyres.

Fun, eco-friendly electric scooters, perfect for zipping through the city, ideal for short breaks, around the golf course and much more.
