

INTRODUCING 'FAIRWAY' - OUR COOL ELECTRIC GOLF SCOOTER

I hope you have recently received our letter and mini-brochure through the post introducing our cool electric golf scooter, the 'Fairway' Special Edition. Renowned for selling the UK's coolest road-legal electric scooters, we have developed a 3-wheel version with a specification that will appeal to golf clubs and golfers alike.

The scooters are amazingly easy to use with a simple twist-and-go throttle allowing your golfing guests to enjoy their round of golf in even more comfort, with that added excitement, as well as adding very little wear to the course as the three oversized 'Tubby' tyres spread the scooter's weight over a wide area.

And being fully electric, our scooters are also environmentally friendly.

Naturally we'd love to see you take a fleet of our scooters for your golfing guests to rent from you. Depending on your rental price, you'll recover your investment in a relatively short period and following this, all subsequent rental revenues will be pure profit for your club. Click here for a couple of examples of how this might work for you.

How about a demonstration and test ride? We'll give you a call in the next few days to arrange a convenient date and time or alternatively you can get in touch with us by calling us or by email using the contact details shown.

Best Regards,

Steve Mirfin - Director

the
TUBBY TYRE
